April 2024– June 2025

ENVI SYNERGY

Marikina

- | | |
|--|--|
| • Supported development of internal systems and web applications | • Assisted in debugging, testing, and optimization |
| • Worked with senior developers to enhance system functionality | |

PROJECT

Developed a system for managing schedules, participants, and exams, including calendar tracking, notifications, and reporting features using C#, ASP.NET, CSS, SQL, EF Core, and AWS S3. Built and maintained Enterprise Internal Portal (training.simmonsconsult.eco and simmonsconsult.eco), a Razor Pages and MVC-based platform supporting training, CRM, HR, and finance workflows. Implemented backend services with EF Core code-first data models, migrations, and repository patterns, along with role-based authentication and authorization. Integrated AWS S3 for file storage and applied dependency injection, async/await, caching, and a thin-controller/service-layer architecture to ensure scalability and maintainability.

OFFICER IN CHARGE

July 2023– March 2024

KNM MARKETING

Quezon City

- | | |
|--|--|
| • Respond to customer inquiries and requests via chat in a timely fashion. | • Display a courteous and empathetic attitude to all customers |
| • Daily monitoring of price changes on the market. | • Updating stock levels for products. |
